

I prefer you don't ease up on the no call list. I am a Realtor and I do not call people at home to ask them if they want to sell their homes, I don't want someone calling me asking me if I want to buy something. If I want banking information or want to buy light bulbs I will either call a bank or go to the store. I do not appreciate being bothered when I'm at home trying to relax and enjoy my family. Thankyou
